Wednesday, June 10th 2009 | 2:00 p.m. - 3:00 p.m.

Webcast Presenters: Deon Minnaar, Partner, KPMG LLP and Jim Littley, Partner, KPMG LLP

KPMG Webcast Description:

Management is under unprecedented pressure to reduce costs, improve corporate governance, manage risks and controls and rebuild trust to ultimately drive performance. These challenges are often met under the backdrop of staff reductions and sourcing changes.

What are leading organizations doing to meet these objectives?

Many leadership teams are leveraging savvy, cost effective, technology-enabled techniques to extend risk coverage and improve risk oversight, while enhancing performance.

With the focus on monitoring and managing risk, improving performance, reducing costs and reducing the risk of fraud and misconduct in today's environment, this Webcast will explore how continuous auditing and continuous monitoring (CA/CM) can provide improved visibility into many of these areas of focus to help drive improvement.

In this Webcast, you will learn how CA/CM can:
